Urgent President's Message

April 27, 2022

Dear Member,

Our community is under attack. No, I am not exaggerating.

Someone created a false flyer and lifted images from social media falsely impersonating our security guard. The flyer portrays Anthony as some kind of stormtrooper sworn to bring law and order back to BCL. It also solicits food and snacks from residents as a thank you. These flyers were placed in many members' mailboxes around the community.

Please be assured that this is disinformation spread by someone trying to cause more disharmony in our community. This was not created or sanctioned by BCL, Tristate Security or Anthony himself.

If anyone has any information or saw anyone other than the mailman at the mailboxes, please let us know immediately.

While we have had a few bumps in the road during the transition to the new security company, the process has been relatively smooth, and we are getting much more for our money. If any member has any feedback on any interaction with Anthony or other Tristate employees, please do not hesitate to email the office. Every comment will receive prompt attention.

Thank you,

Kevin McGrath, President
